# FINANCE AND TRADE

FINANCE.

MENTERS, November 12, 1868. The demand for money to-day from cotton buyers was not well distributed. Some of our banks had all offered that they cared about taking, while others complained of a scarcity. The counter demand is active upon points East as well as on New Orleans, and rates are irregular. Buying at |@ to discount on the former, and to discount on the latter point. Seiling at par on New Orleans, and at par@ic discount on New York,

City Bonds are quiet. Dealers offer 52@52je, and sell at 53@54e. We could learn of no transactions.

City Scrip is again becoming the subject of anxious inquiry from tax payers. Every day it becomes firmer, or advances, and still those who must have it put off the purchase, boping for something to turn up. We assure them that something will turn up, and by the 1st of December they will be unable to buy 

County Warrants are in active demand from speculators, who are eager to buy at 70@71c, but none can be found. Tax payers can buy at 78@80e, with possibly an occasional opportunity at 75@ 75e, bur dealers generally are not selling, hoping to get higher figures in a week or two.

School Scrip has been about all ab-Borbed. Police Scrip is steady at 503 buying.

Herald, who has given a large share of his attention to statistics of the cotton crop of this year and its value, thinks that the speculators will not be able to play the same game they did last year. The entire yield of cotton in 1867 and 1868 brought in reund figures \$221,000, 000, the average price per bate boing eighty-five dollars. Below is given the estimated value of the present crops averaging each bale at \$110:

dency of flour. This weakness has been apparent, and has been increasing since harvest. To-day the market is doller probably than at any time this season. The stock is large, and the best family brands are selling at \$12.012.50 by the dray load, while low grades are very dull and irregular. Clear bacon sides are also some weaker; 15 casks were sold during the day by one house at 19 c.

They are still scarce, however, and orders for small amounts can't be filled at points to Vickaburg. She is a Memphis, in the country of the day of November, and deserves all the patronage in the District Court of the United States, for the United States, for the United States, for the United States, for t will generally supercede bacon. Old are associated in the office. mess pork is searce at \$30, while new mees, guaranteed as to weight and cure, is offered at \$28@28 50. Short weight mess pork will not be apt to find its way to this market this season, as all packers are required henceforth to brand their names upon each barrel. This, it is thought, will prevent much of the ras- PROCTOR & GA BLE cality practiced heretofore, and which has brought the meats of Chicago especially into bad repute with our dealers The packing season in that market has not been favorable so far to packers, who, it is alleged, have to pay prices which will not justify on account of the competition from outside buyers, many of whom have flocked there.

Since writing the above we learn of one or two lots bulk meats being received. Clear sides are beid at 183; bulk shoulders, 13c.

The Commissioner of Internal Revenue has decided that dealers in liquors, on making returns of distilled spirits on hand, are required to draw off into regular barrels what at the time may be: n their stand-casks, in order that it may be gusged and stamped.
